ALAINA MENTKOW SCHOLARSHIP FUND

The parents of Alaina Mentkow, a former Phoebe Needles camper, wanted other young people to have the same great summer camp experience as their daughter had as a camper for several summers at Phoebe Needles. Following her death this past year, they created, **The Alaina Mentkow Summer Camp Scholarship Fund**. The Fund will ensure for many years to come that a summer camp experience is available to every young person without respect to their ability to pay. "We believe spending a week away from home and everyday friends, in a rural residential setting, that provides challenging activities, a supportive staff and lots of fun, is of great benefit to every person."

The Phoebe Needles Center summer camp program is offered at the most affordable price we can reasonably offer. It costs the Center more than three times the fee we charge for campers to attend a week of camp. The **AMSF** is committed to making sure you have the opportunity to come to camp.
